Port Logistics Group Named a “Top 100 3PL” by Inbound Logistics

2nd year of award reflects growth, service to customers

HOUSTON, August 14, 2013 /PR Newswire/ -- [Port Logistics Group](#), the nation’s leading provider of gateway logistics services, today announced that it has been named a “Top 100 3PL” by [Inbound Logistics](#) magazine for the second consecutive year.

This year's Top 100 3PLs were selected from a pool of more than 300 companies. Each year, Inbound Logistics editors select the best logistics solutions providers by carefully evaluating submitted information, conducting personal interviews and online research, and comparing that data to the readers’ global supply chain and logistics challenges. The service providers selected are companies that, in the opinion of IL editors, offer the diverse operational capabilities and experience to meet readers' unique supply chain and logistics needs.

“We are very pleased to be named as a Top 100 3PL provider again,” said [Bob Stull](#), CEO of Port Logistics Group. “This recognition reflects the growth of our national brand and a continued high level of service to our customers in the demanding retail marketplace.”

“Companies looking to source from and sell to global markets face new and ever-changing challenges to their supply chain operations. Increasing costs of extended supply chains; disruption, risk, and dislocation in markets and supply sources; security; compliance – all these must be overcome while maintaining world-class customer service,” said Felecia Stratton, Editor of Inbound Logistics. “Because Port Logistics Group is a leader in serving the burgeoning global supply and logistics challenges of our readers, the editors of Inbound Logistics Magazine are proud to recognize you as a 2013 Top 100 3PL.”

The list was published in the print version of the July issue of Inbound Logistics, and it is available online in the digital edition at www.inboundlogistics.com.

ABOUT PORT LOGISTICS GROUP

[Port Logistics Group](#) is the nation’s leading provider of gateway logistics services, including value-added warehousing and distribution, transloading and cross-docking, vendor consolidation and national transportation. With nearly 5 million square feet of warehouse space strategically located in and around major North American ports, Port Logistics Group provides the critical link between international transportation and the “last-mile” supply chain.

ABOUT INBOUND LOGISTICS

Inbound Logistics is the leading trade magazine targeted toward business logistics and supply chain managers. The magazine's editorial mission is to help companies of all sizes better manage corporate resources by speeding and reducing inventory and supporting infrastructure, and better matching demand signals to supply lines. More information is available at www.inboundlogistics.com.
